

Name : Joseph D. Bushi
D.O.B. : 04.06.1970 (USA)
Sivilstatus : Cohabitant, 2 children

Address : Jomfrubråtveien 66a, 1179 Oslo
Telephone : + 47 93 29 13 90
E-post : joeb@kollektiviti.com

OBJECTIVE :

Seeking a contract or permanent position that utilises my creativity and knowledge of web development.

SKILLSET :

- Technical** Front-end web development (11 years): web standards, (X)HTML, CSS, Javascript (AJAX), DOM and cross-browser compatibility issues.
- Back-end web development (7 years): object-oriented and procedural PHP, MySQL, Apache, XML/XSLT, web services. Web frameworks: CakePHP, Symfony, Ruby on Rails, Camping. CMS: Textpattern, Joomla, osCommerce (ecommerce), RadiantCMS
- Proficient on Mac, *nix and Windows platforms; version control systems, SSH and remote administration tasks.
- Graphic** Visual communication skills include strong layout and typographic skills; and expert graphic production and automation/templating and optimisation skills using Photoshop.
- General** Team-oriented, able to manage multiple projects and delegate authority. Excellent written and verbal communication skills. Efficiently handle environments where priorities are constantly changing.

SELECTED PROJECTS :

- 2008** **Drammen teater** <http://www.drammenteater.no>
Developed custom Textpattern (PHP) plugin to parse events data within articles allowing for ticket purchasing. Helped automate article creation related to events listed on the Billetlukka service.
- 2008–present** **Vendit AS** <http://www.vendit.no>
Implemented CMS-driven site that interfaces with third-party real estate CRM. Utilised a combination of technologies: PHP, AJAX, cURL and XML to JSON to retrieve/manipulate data. Employed CSS grid layout technique.
- 2007** **MMW Sivilarkitekter** <http://www.mmw.no>
Re-designed front-end and created custom CMS using CakePHP web framework. Developed AJAX-driven image manager with drag/drop sorting for administration.
- 2004–present** **Aktiv Fritid** <http://www.aktivfritid.no>
Implemented a customised osCommerce shopping cart. Developed dynamic newsletter generation tool and registration process that interfaces with third party mass mailing tool. PHP, MySQL, XHTML, CSS, JS, SOAP.
- 2003–present** **IPnett AS** <http://www.ipnett.no>
Developed custom CMS for corporate website and extranet. Created web-based campaigns and newsletters.
- 2000** **Jamjar - Direct Line**
Planned, organised and managed front-end build of UK's first online car buying site. Based on ATG Dynamo and Interwoven; established production and coding guidelines for designers and developers; and co-ordinated between creative, technical, project management and the client to ensure development was on track.
- Other clients include:** Anheuser-Busch, Inc., Art Technology Group, Avon, BlueCom, Bordeaux Index, Busch Entertainment Corp., Chrysler Corporation, Consensus Health, Coral Energy, Frost & Sullivan, Gillette, Heinz, IBM, Jansport, Logitech, Lycos, Network Associates, Inc., Nikko UK, Novartis, Oddbins, Oracle, Rockport, Rolls-Royce and Bentley Motor Cars, Royal College of Art (London), Scenesans, SecureSoft, Silicon Graphics, The Stationery Office Ltd., Wrangler and Lee Jeans.
